AN ORDINANCE

AN ORDINANCE authorizing and directing the proper officers of the Township of Wilkins, for and on behalf of the Township, to make and enter into a written contract with the Pennsylvania Water Company, for the furnishing of water to the Township of Wilkins, for fire protection, providing for the installation of fire hydrants, their operation and maintenance, and fixing the rates of charges for water service.

Section 1. Be it ordained and enacted by the Commissioners of the Township of Wilkins, in meeting assembled, and it is hereby ordained and enacted by the authority of the same, that the proper officers of the Township of Wilkins are hereby authorized and directed to make and enter into a written contract with the Pennsylvania Water Company in the following form:

AGREEMENT made and executed in duplicate this 30 day of April A. D., 1915, by and between the Pennsylvania Water Company, a corporation of the State of Pennsylvania, party of the first part, and Wilkins Township, in the County of Allegheny, of the said State, party of the second part.

WHEREAS, the Commissioners of Wilkins Township wish to provide for fire protection to the residents and property owners of that portion of the said Township lying to the North of the Borough of Turtle Creek and West of Thompson's Run; NOW THIS AGREEMENT WITNESSETH:

Water Company to Furnish Fire Protection.

FIRST: That the said Pennsylvania Water Company does hereby agree to furnish the said Wilkins Township with water for the extinguishment of fires through Thirteen (13) fire hydrants to be located in the said Wilkins Township on pipe lines of the said first party, which are to be laid for the purpose of supplying said fire hydrants and such other fire hydrants as may hereafter be located under the provisions of this contract. A list of the pipe to be laid and the hydrants to be set at the present time is attached hereto and made a part of this agreement.

Fire Hydrants.

SECOND: That all fire hydrants which may be set under this contract shall be double nozzled with the same hose thread and with the same seized operating nut as those now in use in the Borough of Turtle Creek and shall open by turning in the same direction.

No Liability for Failure to Supply.

THIRD: That the said first party shall not be held or deemed liable for any damages occurring by reason of temporary failure to supply water when such failure is owing to any accident to or breakage of its pumping machinery, water mains, reservoirs or other parts or appliances of its plant or system, if same happens without negligence on the part of said first party or arises from any cause beyond the control of said first party or is caused by the shutting off of the water for the purpose of making necessary repairs or extensions to its system.

Repairs to Fire Hydrants.

FOURTH: That the said first party shall keep all fire hydrants covered by this contract in effective working order and repair all leaks within forty-eight (48) hours after the receipt of notice from the Chairman of the Board of Commissioners, Chairman of Water Committee, or other proper official.

Cost of Maintenance of Fire Hydrants.

FIFTH: That the said first party shall and will maintain the said fire hydrants at its own cost and expense (except in the case of damage caused by carelessness or negligence on the part of the employees of said Wilkins Township or members of its Fire Department, in which case the Township shall pay such cost and expense) and upon written request from the Chairman of Board of Commissioners, Chairman of Water Committee or other proper official, shall provide a proper person to accompany the authorized agent or representative of the Township in the inspection of same, said person to perform all necessary manual labor and said inspection to be made at convenient hours and reasonable intervals.

Use of Fire Hyirants.

SIXTH: That the said Township agrees to use the said fire hydrants carefully and will not allow any water to be taken from them for private consumption or for any other purpose whatever except the extinguishment of fires unless by the consent of said first party, first had and obtained in writing.

Additional Fire Hydrants.

SEVENTH: That the Township shall locate as its Commissioners may deem necessary, such additional fire hydrants on pipe lines now laid or that may hereafter be laid or at such places as may require the laying of additional pipe to reach and supply them. Upon receipt of written notice to do so, the first party shall proceed at its own expense to furnish, set and connect the hydrant or hydrants ordered. Said additional hydrant or hydrants and any additional pipe which may be required to reach them, shall be paid for at the rate provided for in Section 9 hereof, and shall be controlled, governed and regulated in like manner with the Thirteen (13) hydrants herein contracted for.

Inspection, License, Tax, Etc.

EIGHTH: That if during the term of this agreement, the Board of Commissioners of Wilkins Township or its successor should deem it advisable to provide for the inspection of the mains of the said first party, it is hereby agreed that the said inspection shall be made without cost to the first party, as part of the consideration for the service rendered by the said first party in supplying fire protection, and it is further agreed as a part of the consideration of this contract, that the Township shall not, during the term of this contract, impose any license, tax or charge upon the property, franchise or business of the Water Company, which would diminish the returns to be paid to the Water Company.

Rates.

NINTH: In consideration of the carrying out of the above provisions of this agreement on the part of the Pennsylvania Water Company, Wilkins Township agrees to pay therefor at the rate of Two Hundred Seventy-five & no/100 Dollars ($275.00) per year per mile of distribution pipe line of the said first party within the Township limits of the said Wilkins Township as said limits exist at the present time or as they may be altered by the annexation of additional territory in the future and the additional sum of Six & no/100 Dollars ($6.00) per year from each fire hydrant now in service, or that shall be installed on written order of the Township, as provided in Section 7 hereof. Bills for service will be presented quarterly and shall be due and payable within thirty (30) days thereafter.

Provided, however, that for distribution lines laid within the Township limits on streets forming the boundary lines between Wilkins Township and other municipalities, the Township shall pay for the whole of such lines, but the Water Company shall refund to the Township such sums as it may collect for the use of such lines by such adjoining municipalities for municipal purposes as may be necessary to equitably apportion such charges between the Township and such municipalities; and to this end Wilkins Township agrees to co-operate with the Pennsylvania Water Company in arranging for such equitable apportionment in all cases affecting the Township.

Basis of Computation.

TENTH: That for the purpose of fixing the compensation provided for in Section 9 of this agreement, it is hereby agreed that the number of miles of distribution pipe lines to be laid in Wilkins Township by the party of the first part under this agreement is 6324 feet or 1.1977

miles, as shown by the schedule of pipe lines hereto attacheddand marked "Exhibit A", and that the number of fire hydrants to be placed in service on said pipe lines is Thirteen (13) as shown by list of said fire hydrants Marked "Exhibit B" and attached hereto. It is further agreed that the pipe and hydrants listed in Exhibits A and B shall be furnished and installed by the party of the first part within Ninety (90) days after the approval of this agreement by the Public Service Commission of the Commonwealth of Pennsylvania as required by the Public Service Company Law.

For the purpose of determining what shall from time to time be paid under this contract, it is further agreed that the schedule of Exhibit A shall be increased by the lengths of the extensions of the distribution pipe system which may hereafter be laid to furnish proper and adequate service to Wilkins Township or the owners of property within the said Township: Provided, however, that in case the party of the first part should extend its distribution pipe lines within the Township to reach unimproved property or property from which there is no demand for a supply of water at the time the extension is made, (the cost of said extension being advanced by the owner or owners of the property petitioning the first party for said extension) the distribution pipe line or lines so laid shall not be included with that upon which the bills for fire protection shall be based; but upon application for a domestic supply of water for a property located on such an extension of the distribution pipe system within the limits of Wilkins Township and the repayment by the party of the first part of a part or all of the cost which was advanced to it for the laying of said line, then, all of said extension or such part of it as is represented by the amount of the cost repaid shall be included in the distribution pipe system of Wilkins Township upon which the annual rate per mile shall be computed.

ation.

ELEVENTH: This agreement shall go into effect as of 20th of April 1915, and shall continue in force and be binding on both parties for the term of ten (10) years from that date.

TWELFTH: It is hereby understood and agreed that it is not the purpose or intent, nor is the obligation of this contract, if and when approved by the Public Service Commission of the Commonwealth of Pennsylvania, such as to impair or in any wise affect the exercise by said Commission of any of the powers vested in it by the Public Service Company Law approved July 26th, 1913.

IN WITNESS WHEREOF, the said Pennsylvania Water Company has hereunto caused its common and corporate seal to be affixed, duly attested by the officers thereof and the Chairman of the Board of Commissioners and the Secretary of the said Wilkins Township, pursuant to an Ordinance of said Board of Commissioners approving this contract, passed on the 20 day of April, 1915, copy of which is hereto attached and marked "Exhibit C", have hereunto signed their names and caused the Township seal to be affixed, duly attested by the Secretary of the Board of Commissioners.
