

The Churchill Area Environmental Council (CAEC) is seeking interested Wilkins Township residents to serve. The mission of the CAEC is "To advise member municipalities and their residents on matters of environmental interest and importance." CAEC serves the communities of Chalfant, Churchill, Forest Hills and Wilkins. The Board meets on the third Tuesday of April and October at the Churchill Borough Building, 2300 William Penn Highway at 7:00 PM. Periodically, the CAEC develops and distributes advisories and fliers on timely environmental issues affecting our communities. Each year the CAEC, along with its member municipalities, sponsors a graduation scholarship for a senior at Woodland Hills High School. Applicants for this monetary award must complete a project that makes an active, tangible contribution to environmental conservation, education, legislation, or research – particularly within the school district or the communities it serves.

For additional information, or to make application for one of these positions, please contact John Weber at jweber2000@aol.com
